THE CITY OF Mauston

Good afternoon, Mr. Clark,

Thank you for reaching out and sharing your concerns. Please know that the City takes every resident's request seriously and is committed to following all appropriate procedures.

For your records, I have attached the executed contract with Flock. The document previously sent to you was a quote, not the final agreement. We apologize for any confusion caused by providing the unexecuted quote. Please know that this oversight was unintentional, and the pricing on the executed contract reflects the City's actual cost of $6,000 per year.

Regarding your reference to the procurement statute, I'd like to clarify that the statute you cited pertains specifically to public infrastructure projects exceeding $25,000, which require a formal Request for Proposals (RFP) process. Not only is the Flock camera purchase not considered public infrastructure, it's considered an operational investigative tool and also falls well within Chief Zilisch's purchasing authority and City policy, as the total expense is $6,000 annually and comes directly from his operational budget.

Additionally, the funding for these cameras is sourced from interest earned on a prior estate donation made to the Police Department. Although the expenditure of these funds falls under City policy, the Chief of Police is granted discretion over how these funds are expended, as he does with any investigative tool that is within his operating budget.

Finally, I want to assure you that the City and its officials will continue to act professionally and in accordance with established laws and procedures, we will continue to serve our citizens by making sound policy decisions, seeking input from the community, and utilizing resources available to us. We will not make policy or safety decisions regarding our community based on threats or intimidation tactics. Thank you again for your time and understanding in this matter.

Sincerely,

Mayor D.D. Teske

Daron J. Haugh, MBA
City Administrator
